

How Quickly Can Admin Staff Book a Job?

With and Without Intelligent Scheduling

WITHOUT VS WITH

1

Work out which technicians could handle this type of job

2

Scour your schedule for a suitable gap to fit the job

3

Try to work out if the driving time between the jobs will work out using Google Maps

4

Make sure that appointment matches the technician's shift times

5

Customer says "I can't do that week"

6

Repeat the process... whilst the customer waits

10 MIN

1

Add the job against the customer in the system

2

Click to book a 'suggested appointment'

Book

3

Within seconds, see the most efficient slots available, factoring job length and driving time

4

Only technicians with the correct skills and shift availability are shown

5

Customer says "I can't do that week"

6

Simply change the date to see new, efficient time slots in moments

2 MIN

★ They say that seeing is believing!

So, to see for yourself how you can **save time** and **fit more jobs into each day** try Commusoft's Intelligent Scheduling Game, below!
